

# Forerunner

## Yesterday. Today. Tomorrow.

With curiosity and determination, we – the Sensor People – have been innovators for technological milestones in industrial automation for more than 50 years. The success of our customers is what drives us. Yesterday. Today. Tomorrow.

**CORPORATE  
BROCHURE**

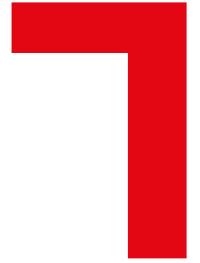

# Who we are..

In a constantly changing industrial world, we work with you to find the best solution for your sensor applications: innovatively, precisely and efficiently.

Foundation	1963
Company structure	GmbH + Co. KG, wholly family-owned
Executive management	Ulrich Balbach
Headquarters	Owen/Teck Germany
Subsidiaries	20
Production locations	5
Technological competence centers	3
Distributors	> 40
Employees	> 1,200

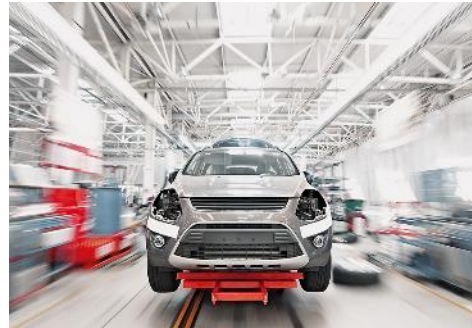

**Intralogistics**

**Packaging industry**

**Machine tools**

**Automotive industry**

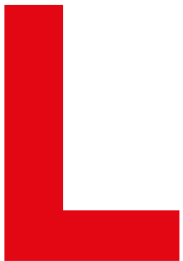

**Laboratory automation**

**Textile**

# Specialists for your application

More than 50 years of experience and our extensive application knowledge have made us specialists in our core industries.

# Products with maximum user friendliness

Our diverse product range offers you innovative technologies with optimum usability and highest performance.

**Switching sensors**

**Measuring sensors**

**Safety**

**Identification**

**Data transmission**

**Network and connection technology**

**Industrial image processing**

**Accessories and supplementary products**

## Switching sensors

- Optical sensors
- Inductive switches
- Capacitive sensors
- Ultrasonic sensors
- Fiber optic sensors
- Forked sensors
- Light curtains
- Special sensors

## Measuring sensors

- Distance sensors
- Sensors for positioning
- 3D sensors
- Light curtains
- Bar code positioning systems
- Forked sensors

# Safety

- Safety laser scanner
- Safety light curtains
- Single and multiple light beam safety devices
- Safe locking devices, switches and proximity sensors
- Safety PLCs and relays
- Machine Safety Services

# Identification

- Bar code identification
- 2D-code identification
- RF identification

# Data transmission

- Optical data transmission systems

# Network and connection technology

- Connection technology
- Modular connection units

## Industrial image processing

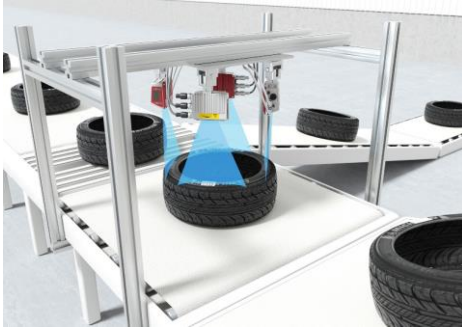

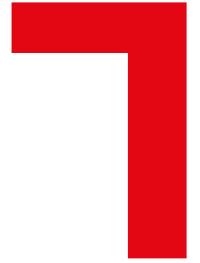

- Light section sensors
- Smart camera

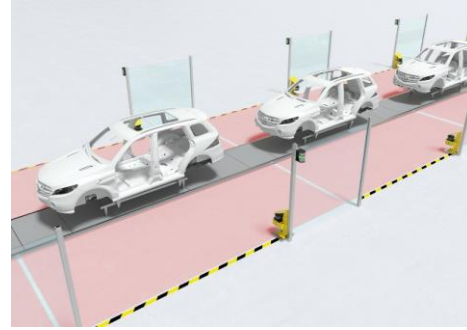

## Accessories and supplementary products

- Signaling devices
- Mounting systems
- Reflectors

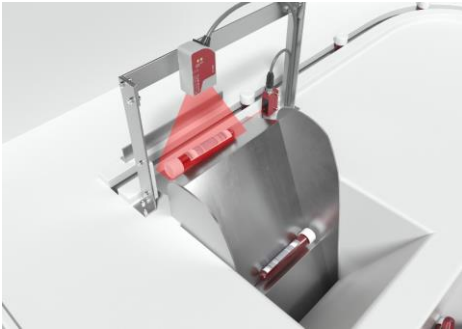

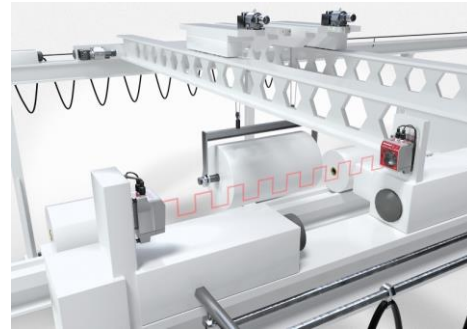

**Barcode Scanner (In Tyre Industry Application)**

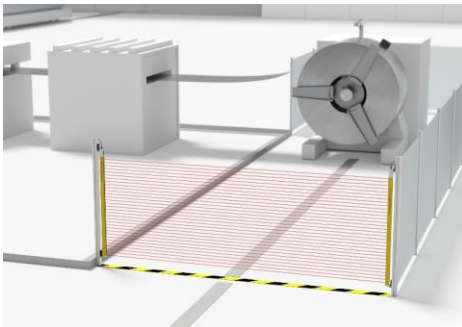

**RSL (In Automotive Industry Application)**

**DCR (In Packaging or Pharma Industry Application)**

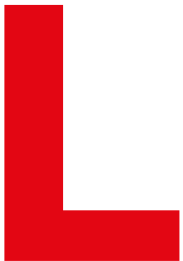

**AMS/DDLS (In Intralogistics Industry Application)**

**Safety Light Curtain (In Machine tools Industry Application)**

# Practical applications

By concentrating on increasing efficiency, we have already developed many solutions for practical applications. You can find a selection of application examples here which will show you how we work and how our customers benefit from this.

# Customer portfolio
